# EVERY DAY, EVERY CYCLE, SPEED QUEEN PERFORMS.

Manufactured by the world's number one commercial laundry company, every Speed Queen model is tested to its limits and beyond, and benchmarked against the competition to ensure it outperforms and outlasts the rest. While the average life expectancy of a domestic top load washer is 11 years (based on eight loads per week<sup>1</sup>), Speed Queen machines are designed, and tested to handle 25 loads per week. That's 1,300 cycles per year. This means washing eight loads per week you get a machine that can last 25 years of home use.
